

Request Lists and Labels

As you make plans to recruit members for your affiliate or assembly by using the NCTE membership list, please consider the following.

Names and addresses for all members of NCTE are available. (For more information, read the [NCTE Privacy Policy](#).) These lists are sent to you as an Excel spreadsheet.

Lists may be ordered for

- entire state(s)
- a specific geographic area within a state(s) by supplying the first three digits of the desired zip codes
- a special interest area (e.g., children's literature, feminist studies, ESL)
- a voting section or constituent group

Some additional notes in addition to the above options:

- NCTE has an approximate individual membership/subscriber breakdown for the following groups, which makes it possible to limit the number of individuals you are contacting (if, for example, you don't want or have the resources to mail to the entire Secondary Section):
 - Voting Section/Constituent Groups
 - Conference on College Composition and Communication (CCCC)
 - Conference on English Education (CEE)
 - Conference on English Leadership (CEL)
 - Whole Language Umbrella (WLU)
 - Support for the Learning and Teaching of English (SLATE)
 - Teaching English in the Two-Year College subscribers
 - Research in the Teaching of English subscribers
 - Elementary
 - Middle
 - Secondary
 - College
- Interest Areas—Note that member profile information is only available by the category listed on the profile sheet. These categories may not be tailor made for your recruitment purposes and we may or may not be able to mix and match appropriately for your needs.
- Many states have large NCTE memberships, e.g., California and New York, and your mail budget may not support large mailings. Consider limiting your mailing by grade or interest level or by area of the state.

If you wish to request a list, send an email to affsec@ncte.org.
