

## **Presentation Materials Accessibility Requirements**

Before continuing on to submit your presentation materials, please ensure that you have all required accessibility materials ready. Recorded videos must be accurately captioned and/or accompanied by a full transcript. If you have visual images/photos/graphics in your recording, they should be accompanied by textual or verbal description (an explanation of the image for individuals with vision impairment). NCTE and LLA are committed to accessibility for all conference attendees, and the ADA requires by law that digital materials be shared in accessible formats.
